A photograph of two men, John and Ocean Robbins, smiling and standing outdoors in front of green foliage. John, on the left, is older with grey hair and is wearing a dark jacket over a brown shirt. Ocean, on the right, is younger with dark hair and is wearing a dark jacket over a light blue shirt. They are both smiling warmly at the camera.

“Food free from radioactive contamination is vital to current and future generations. Though there is much we don’t know about the long term health effects of consuming radioactive food, it’s clear that the levels of radiation deemed to be acceptable in U.S. food are far too high and need to be lowered. All future generations are counting on us to take a stand for their health and survival.”
