

VERIZON AND AT&T 5G NEW CELL TOWERS PLANNED 15-50 FEET FROM HOMES

EMERGENCY ACTION NEEDED

EXTREMELY HIGH FREQUENCY, DENSELY DISTRIBUTED, CELL TOWERS planned for installation on lamp posts and utility poles throughout residential neighborhoods and mixed use areas

5G BENEFITS INDUSTRY, NOT THE CONSUMER

5G is for wireless TV & IoT - Not for more cell phone coverage
Microwave antenna infrastructure on thousands of utility poles will increase fire risk!

- Carriers like Verizon and AT&T are attempting to **pre-empt local control** by pushing densification of microwave antennas while ignoring public health, safety, and local choice.
- **Telecoms seek to maximize profit** through the densification of 5G antennas for 'Wireless TV' and 'The Internet of Things' - **NOT increased cell phone coverage.**
- Carriers are pushing a quick rollout of this new **LARGELY UNTESTED TECHNOLOGY** without adequate research of its impact on human or environmental health.
 - Studies show **cell towers installed close to homes significantly reduce property values - homes near cell phone towers are devalued by 20%-25%.**
 - Carriers will further **ERODE OUR PRIVACY / USE FACIAL RECOGNITION / SELL OUR DATA.**

KNOWN HEALTH EFFECTS OF MICROWAVE RADIATION

- An increase in gliomas of the brain and schwannomas of the heart
- An increase of tumors in other organs (adrenal, prostate, pancreas, pituitary, lung and liver)
- Three times greater risk of miscarriage

WHAT CAN WE DO?

Request a Marin County Urgency Ordinance that protects Unincorporated Marin County

from 5G cell towers near our homes, businesses and schools.

Please Email West Marin's Supervisor Dennis Rodoni and cc all other Marin County Supervisors:

drodoni@marincounty.org, dconnolly@marincounty.org, krice@marincounty.org,
ksears@marincounty.org, jarnold@marincounty.org.
